Louisville, Jan. 27, 1854.

The Lightning Conductors on the plan of L. Spratt, of Uncinnata, appear to be very well discussed, and in swinted acchanical construction, are the best I have ever seens. It is to be higher that the use of these may become general as an important accidence of the conductors which must be regarded as of no octobary in gaunde, to which all baildings are lather.

Holloway's Pills, the most powerful Remedy for all disorders affecting the in testines.-These I ille are pronounced without hesitation by all who have tried them to he one of the most efficacious remedies aver made known, they act so directly upon the affected parts that it is impossible any disease of the stomach or bowels can reeist their searching influence, and so they thoroughly pass through and cleanse the aystem, removing all traces of disease. It is a remarkable fact, that these Pills seldom fail to restore the patient to health even after every other remedy has been used annsuccessfully.

Scene in a' Western Bank .- One of our Western correspondents tells the every of manwho had a draft on one of the bankaits Illinois for three thousand dellers, for which he demanded specie. The back of ficers invited the applicant to come behind the counter, which invitation was accuseed: when the door of the bank safe was opened and the officer addressed the following language to his visitor : "Say, stranger, look in that further corner of this safe and you will see a small pile of gold. Now, that pile is the least possible sum that the law will allow us to keep on hand, a wasting, while we are a banking institution; and i you think that I am going to break one e our state lows to pay you in specie you don't know who I am. You never wornged me, and I have no ill will against you, but take care how you run on our bank, by I will bring out our revolvers." The stranger took bills for his draft. Zion Church.-The annual meeting of the Corporation of Zion Church, was held by adjournment at the chapel, on Monday evening, April 16th, when the following of ficers were unanimously elected for the year ensuing, viz :---

William C. Cozzens, Senior Ward-

Charles H. Mumford, Junior Ward-₽n; Augustus Bush, Assistant Junior Ward-

Charles Devens, Treasurer;

James Atkinson, Secretary & Vestry Clerk.

VESTRYMEN

Micah W. Spencer, (vice J. D. Northam, resigned,) Henry Y. Cranston, Samuel B. Vernon, Alfred Barker, Wm. Rider, Augustus N. Littlefield, George Cozzens, George A. Richmond, James Birckhead, Wm. Cornell.

After the election of officers, the Resignation of the Rev. Mr. Watson, as Rector of the Parish, was read to the members of the Corporation, who recieved it with profound regret. As if with one mind, several sets of appropriate and warm hearted resolutions were simultaneously presented to the chair and read, expressive of the deep feeling entertained by his parishioners on account of the change he had thought proper to make, which having been referred to a committee, the following were reported and adopted without a dissenting voice :

Resolved, unanimously, That we most deeply regret that the time has arrived when our universally beloved and esteem ed Rector, (the Rev. Benjamin Watson,) has felt it to be his duty to sever his mininterial connexion with this parish, a connexion, which, during thirteen successive years, marked by so many interesting and endearing reminiscences, has been eminently beneficial and acceptable, both to the Church and to the Society.

Resolved, That the able and earness manner in which he has for so long a period presented to us, with unwavering fidelity, the great and important truths of the Gospel,-and the heartfelt solicitude he has ever evinced for our spiritual and temporal welfare, call for our lasting grati. tade and affection.

Resolved, That the influence of Mr. Watson's high and exemplary character, as a man and a christian, as well in our community as in this Parish, has been widely felt and appreciated, and will not soon be forgotten;-especially by those whose intercourse with him has been of that social. instructive and agreeable nature, which has distinguished, in an uncommon degree. the entire period of his ministry in our Church:

Resolved, That the sympathetic feeling, so warmly expressed in his letter of resignation, for the continued prosperity of our Church, is tally reciprocated; and, united to those other considerations to which we have referred, excites the liveliest emotions of our hearts for his future wolfare in the new field of labor in which he is about to enter, and in which we confidently trust he will,-as we feel assured that he has ever done by his ardual devotedness to the various duties of his sacred office, in that over which he now resigns his charge,-secure to himself the love and esterm of his parishioners, and the approbation of his God.

Resolved, That these Resolutions be entered on the Record, and a copy of them communicated to the Rev. Mr. Watson, and also to the Vestry of St. Luke's Church, Rochester, N. Y., signed by the Chairman and Secretary, in behalf of this Corporation .- Advertiser.

ABOTHER DEFEAT OF NATIVE AMERICAN PRINCIPLES .- In the House, on Saturday, the Committee on Medical Science reported that it is unnecessary to provide that physicians' prescriptions shall be written in English. The report was accepted, not even Brown of Tolland, contradicente .-Pills, infusions, decoctions, powders and plasters can still be ordered in the classical language of Cicero, filling the invalid stomach with reverence even for brown brend botunes, to be washed down with sweeten ed water; while Vin, Spir, Gall, with aqua quas,, will be in demand during the ensuing season,-Boston Atlas.

STRAWBERRIES.-Our market, yesterday, gave charming proofs of the speed with which Spring is opening the way for Summer's fruits. Aiready she showers her own treusures on us with a bountiful grace strongly emuluss of her sister's coming The beautiful strawberry decked the stalls in the earlier part of the morning with what might almost be called profusion -[N. O. Pic., 9th.

Politicians are with us as tigers are with human flesh-when they once "get a taste" they want more. An ex-Governor is perfectly willing to go to the Senate or become inspector of Customs, while an ex-Senator wi condescend to become a tide waiter or "taster of charconl." So long as he can "huld office," he is quite indifferent what that office cousiss of. Politics are down on labor and make a man shun industry as he would the small pox.—Ex, paper.

BY TELEGRAPH.

Wannington, April 13. The engreeing subjects of remark here are the prospect of war and famine. From every part of the country we have accounts of scarcity of food both for man and beas t and of unpromising crops, and a backward season. Aggriculture, for many years past, has lent too many friends to other nore exciting projects—to war, to gold digging, to railroad making, and to city employments, to speculation, politics, profes sions and fillibustering. It is in vain that graduation bills reducing the price of lands to twelve and-a half cents an acre are passed. They add nothing to the supplies of beef cattle or of breadstuffs. The land do nations do not promote agriculture in any visible degree.

The recipients of the land boun ty, under the late act, will convert it into cash at a low rate, as soon as possible, to be expended in objects very different from agricultural pursuits. The vest immigration of late years has created a demand for provisions to an extent exceeding the increased supply which it afforded. A decrease of immigration is now observable, and a pause in the career of speculation will induce many to return to agreculture.

The war panic rises fast. -The flong and frequent Cabinet councils have not ceased. The President has, within a few days past, intimated to outside friends, that he should take a strong and decided position in regard to the Cuhan outrages. He had a conversation, it is said, with Commodore McCauley, before

their enforcement. But the common impression is that he is ordered to attack any Spanish vessel of war that he may catch, and especially the one that hailed and brought to the El Dorado and other vessels. That is to say, he is to resent the alleged insults heretofore offered to our flag by these acts, on the part of the Spanish cruisers. If this be the case, the President must be quite strongly bent upon a war, and will do all he can to bring it about. But if his m sasures are only precautinousry, they may prevent further irritation and be the best neans of securing peace.

The important despatches by the mail steamer from Havano, which were mailed at Charleston, for the Government, relate, it is said, to correspondence between our consul there and Gen, Concha.

A reformed Fire Department has been established in Newark, N. J., for several months, and as the result, the Chief Engineer reports that no fires occurred in that city during the month of March.

Dodging the Law .- The city govern ment of Banger restrict the sale of liquor at the city agencies to those persons who bring prescriptions from physicians. No matter for the urgency of his case, a mai must go to a doctor and pay him to write a prescription, before he can obtain a pint of rum to bathe a sprained ankle or an aching head. The physicians, however, seem to be very liberal in thier view, if we may judge by the following prescription given to an Irishman for a sick child:

"West India Rum I pint. Aqua (water) 5 drops The Irishman obtained his medicine and the child was soon out of danger. It is expected by the medical faculty that they will be called upon to prescribe frequen

doses of medicine like the above, about this

---Prohibitory Laws .- Prohibitory Laws have now been passed in nine differ ent States, viz : Maine, Minnesota, Rhods Island, Massachusetts, Vermont, Michigan, Ohio, Connecticut and New York, In New Hampshire, Maryland, Pennsylvenia and New Jersey, prohibitory laws have been passed by one branch of the Lagislature and failed in the other; and in Wis. consin a law was passed by the Logislature vetoed by the Governor, modified and passed again, and again veloed; and in Ohio. Michigan and Rhode Island the laws have quen pronounced unconstitutional, but in Rhode Island it was modified and passed

is said, with Commodore McCauley, before heleft, and this officer probably has confidential instructions, and has some discretion as to their application.

The conjecture cannot be far amiss that he is ordered to protect American vessels from visit, detention, or hall, or question, by the Spanish vessels of war hovering upon and guarding the coast. He may be ordered to apprize the Cuban authorities of his errand, and to interfere in case of any future occurrence similar to that of the act of a Spanish cruber in bringing to the steamer El Dorado.
